BRIEF ABSTRACT OF LETTER

With reference to the sum of 10 to 12 lakhs of Rupees entered for
 non recurring expenditure in the biennial forecast sanctioned
 in G. O. No 7281-325 of 21.8.13-12-1 dated 17.6.1913, requests that
 this provision may be made available in the budget for 1914-15
 for the construction of buildings for H. V. and other schools specially
 needed at places like Chennarayana, Senanahalli, and other places

NOTES AND ORDERS

The S. G. of Education states that at present many
 of the schools maintained from State funds at District and
 Taluk Ho Quarters are located in old and insecure
 public buildings or in rented buildings unsuited for
 the purpose. He therefore requests that the sum of
 Rs

grant to be made to the Edu. Dep^t during the triennium ending with 1915-16. Out of this amount sums amounting to nearly 3 lakhs have already been sanctioned during the current year and there are some other proposals awaiting sanction.

(c) During the current year the sum of 1 lakh required on account of village school buildings has been debited to the lump sum grant, and the grant of $1\frac{1}{2}$ lakhs asked for during the next year will, ~~if~~ if sanctioned, have to be debited to the same head. Thus the minimum total will be $3 + 1 + 1\frac{1}{2} = 5\frac{1}{2}$ lakhs. The balance that may remain does not exceed ~~the~~ 3 lakhs. If the whole of this amount is now to be allotted in the next year's budget for the construction of Anglo-Vernacular and other school buildings, there will be no money left under the lump sum grant for carrying out any other proposals in the Edu. Dep^t.

(d) The permanent additional grant for the Edu. Dep^t has also been exceeded and no money is available under that head. Consequently all further schemes of the Edu. Dep^t, however useful, can

Serial
No

1597

no longer be entertained and will have to be rejected unless Govt should decide to allot more funds to the Dep^{ty} Secy^{ry} and staff. The request of the Dy. Secy^{ry} that the amount of 1½ lakhs required on account of village school buildings should be in addition to the amount of the lump sum grant promised in the Triennial Forecast is not admissible.

I am of opinion that a wholesale reconstruction of school buildings at Dist and Taluk Head Quarters is not necessary. I doubt whether the Dy really & seriously wants a provision of 10 to 12 lakhs for this purpose in the next years budget as the wording of his letter would lead one to suppose there may be necessity for better ~~school~~ buildings here & there but as far as my experience goes the state of school houses at our District & Taluk Head Quarters, generally speaking can bear comparison with that in other parts of India. Instruction imparted in costly buildings is not necessarily good instruction. The liberal grant of 30 lakhs fixed for the P.W.D. includes a provision for renewing & constructing school houses and the figures ~~pts~~ furnished by the Deputy Comptroller shows that if the Edn Dept is earnest & makes out really strong cases a considerable amount can be secured out of the P.W.D. grant for educational buildings. This in my opinion is sufficient for all practical purposes and the proposal of the Dy need not be sanctioned.

15 Some provision should be made though the large sum named by the 25 cannot possibly be spent in one year. If the PWD can set apart say 2 lakhs every year for a few years for new buildings for Taluk & District schools (apart from provision for road buildings at D'ores & Mysore) it will be adequate, but it is doubtful if the PWD will readily do so

A considerable quantity of attention is necessary to

(11) The state of school buildings is very unsatisfactory in several places & there is at present no systematic attempt made to keep them in good repair, or to replace them by new buildings where necessary. To take the case of Chennarayana, the A.V. School building there is

NOTE—Contn sheet

Serial
No

in a ruinous & dangerous condition so much so that ~~classes~~ it has had to be given up as hopeless of repair -

The classes are held in the High School building in the morning & under this arrangement the school is open only for 2 to 3 hours per day instead of ^{from} 5 to 6 hours. An edu must certainly be very unsatisfactory & must deteriorate.

(22) I am sure that the case of Chennappa is not a solitary case -

(23) Unless schools have adequate accommodation & equipment, education cannot be effective. Unless primary & lower secondary education is good, the human material that comes up to the High Schools & Colleges is sure to be very poor & the large expenditure in higher education will bear but little fruit.

(187 member)
